Let's Meet Luke

Our Manager 😊

Luke is a current student at Google University. He wants to sign up for classes this coming fall, but has no idea what to pick because:

- Is lacking enough opinions from friends to make a good decision
- Has no idea how hard any of his potential classes are
- The course evaluations he has are missing information

How Can We Help Luke?

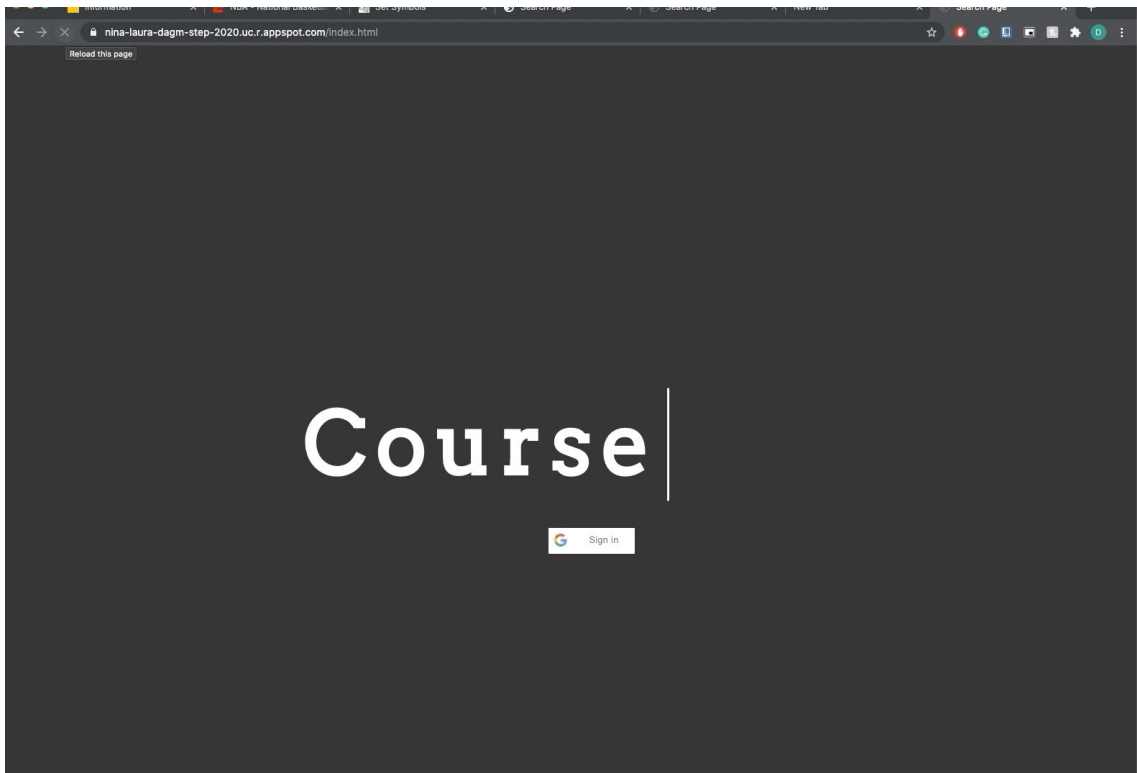

1. Provide a clean and easy way to search for classes
2. Give Luke access to an assortment of meaningful infographics to analyze a class
3. Allow Luke to contribute to the community by giving him a platform where his opinion on a class can be used to help others

Now, Luke is completely informed about what classes he wants to take, yay! Not only that, but now for next term he knows where he will be reviewing his classes!
